## Coleman Credit Union Report Successful Year

The Coleman Savings and Credit Union held its annual meeting in the Catholic hall on February 29, attended by 110 members who enjoyed a banquet supper served by the Ladies of the United Church, and assisted by CGIT girls. An evening of dancing followed the meeting.

The secretary - treasurer, Mrs. Anna Jones, presented her report which showed that 70 new members had joined Coleman branch bringing the total of active members to 276. The 1963 figures showed there was an increase of \$13,331 on the shares accounts and during the year 59 loans had been resolved by the committee. The total balance on loan assets amounts to \$76,735.48.

President M. Corbett gave his report indicating that the Coleman branch was sponsoring an essay contest for grade eight students of the Coleman School.

Share prizes are awarded to the winners of the contest.

He also indicated that Coleman directors had attended workshops in Pincher Creek and Hillcrest, and that one had been organized and sponsored in Coleman.

The Coleman group have joined the Alberta Medical Plan on a group basis through the Canada Health and Insurance Company.

Mr. Corbett also stated that the Coleman Union are investigating a chequeing account system for the Coleman Credit Union as an additional service to members.

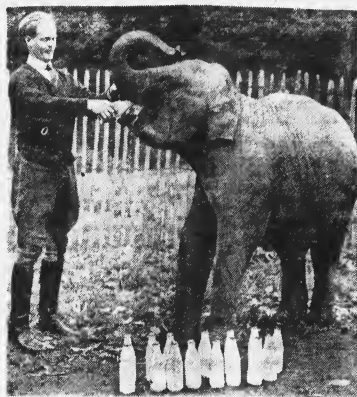

Mr. Corbett expressed his thanks to the directors and committees for the conscientious and good work they are doing.

Reports of committees were given by John Owen for the Credit committee, Les Owen for the Supervisory committee, after which Vice-president Robert W. Woods gave an interesting talk on "Where does Credit Union money go?" He highlighted his talk with a circular graph.

Speaker for the evening was Joe Planie, Alberta Credit Central League field man, whose talk on the work of the Central Credit Union League and its advantages for members was well received.

General discussions were then held by the members and on the recommendation of the Board of Directors, the meeting approved that four per cent share dividends be paid, 15 per cent patronage dividend be paid and that two per cent be paid on deposits.

An election of officers was then held with Ed Amell, Orazio Celi and Mrs. Veronica Proulx being elected as three-year directors; John Sikora as a three-year Credit committee; members and officers elected to the Supervisory committee for three years were W. L. Borrows and Polly Snowden; two years, Alois Kubica and Mildred Zak.

**MILK LOVER.** It takes 16 pints of milk a day to keep "Tamu," 18-month-old elephant in Britain's Bertram Mills Circus, hale and hearty. Trainer Gusta Krue here does his best to satisfy Tamu's jumbo thirst.—TNS Photo

## Library Board Elect Officers At Annual Meeting

The annual meeting of the Coleman Public Library was held last week when the reports of various committees indicated that a number of donations had been made to the library for the purchase of new furniture to put in the library's new quarters in the town's community centre.

Chairman of the committee, Mrs. Bessie Upton, expressed her thanks to the members of the different committees for their fine work and she also thanked those persons who assisted in moving books and other materials into the Library quarters.

An election of officers was then held with Melvin Corbett being re-elected as secretary; Mrs. Bessie Upton as chairman, and treasurer, Mrs. Mildred Zak.

The resignation of Rev. H. DeLeuw as librarian and member of the book selection committee, was accepted and Mary Venier was elected to fill the vacancy.

Principal Horace Allen was elected to the book selection committee and will also act in an advisory capacity.

John Wavrean was elected as publicity chairman, and Mrs. Emily Misura will act as assistant librarian.

Sieve Penney and John Owen will act on the Library Board and two new members, Mrs. Lorraine Aiello and Mrs. Catherine Wavrean were appointed to the board.

At the conclusion of the annual meeting a short business meeting was held when it was decided that additional shelves will be added in the new library quarters for the new books that have been purchased by the board.

## Last Rites For Henry Zak

One of the largest funerals ever witnessed in the Pass was held for the late Henry Zak, sr., well-known Coleman businessman and Blairmore resident.

Fanin's Hillside Chapel in Coleman was filled to capacity for the service held on Thursday afternoon, February 26th, by the Very Rev. Dean P. Tessier of St. Annes Catholic Church in Blairmore.

Following the service the long cortege proceeded to the Blairmore Union cemetery where interment was made.

Members of the Blairmore Legion and Elks Lodge conducted graveside rites under Legion vice-president Bert Moorhouse, Elks Chaplain Don Hayden and Dean Tessier.

Palbearers were Aldo Montalbetti, Delbert Ennis, Delki Peressini, Wilfred Dutil, Clough Riehard and Henry Poriz.

Honorary palbearers were Don Hayden, Frank Lamey, Angelo Fanin, Marc Gryschuk, Legion president Jasper Jones and Bert Moorhouse.

Some prospects are misers; they let the rest of the world go by.

Commercially speaking, — the Douglas fir is more valuable than any other tree.

## Home & School feature "Smoking" Panel Debate

The Coleman Home and School Association held its regular monthly meeting last week when a discouraging attendance was on hand to hear a panel discussion on "Smoking".

A well-versed panel of local citizens, students and teachers took part in the debate moderated by Miss W. Hatchard. Some of those taking part in the panel were non-smokers, smokers and those who had smoked and had quit.

Some of the reasons given for smoking by students were to keep up with the crowd and to ease tension. The students informed the panel that since the Cancer Scare has become so publicized, smoking students are not encouraging non-smokers to start, neither are they offering smokes to non-smokers. Some adults gave no reason for their habit of smoking, while one lady advised that she got fat, she did not smoke.

During the discussions one of the panelists, a school teacher, Mrs. Edna Ondrus, felt that with the publicity on Cancer and Smoking now having its effect on young people, that efforts should be made to promote slower and safer living among young people to avoid the needless loss of young lives.

After a vote of thanks was extended to Miss Hatchard and the panelists for their fine debate, these present enjoyed a lunch.

## Senior Citizens Enjoy Skits

The Coleman branch of the Senior Citizens organization held its monthly meeting last week when the 35 members present were entertained with skits and songs by Mrs. Erna Malanchuk's grade 7 students.

A delegation that was to have attended the executive meeting to be held in Fort Macleod on Wednesday, March 4th, did not attend due to members of the group being ill with the flu.

The executive meeting was to have set the date for the annual Rally Day and the date for the Annual convention.

The meeting concluded after the numbers and entertaining students enjoyed a lunch.

## CNP Festival March 23 - 25

Plans are now being completed by the Festival committee for the three-day Annual Crows Nest Pass Musical Festival to be held in the Isabelle Selton high school auditorium in Blairmore on March 23, 24 and 25.

The Festival, sponsored by the Lions Club, will be adjudicated by Boris Roubakine of Vancouver, B. C., and Captain F. M. McLeod of Calgary.

Deadline for entries into the Festival was set for February 28.

General chairman of the Festival this year is Gus Eriksson, assisted by Ralo Boettli, and secretary is Don J. Thornton, assisted by Eric Price.

## Coleman Ratepayers Hold Annual Meeting

The annual Coleman Ratepayers' meeting was held in the Coleman Council Chambers on February 24th, 1964. Mayor Jack Ostash was elected chairman of the meeting; Trevor Colister was elected secretary. The full slate of councillors was present, along with a few ratepayers of the town of Coleman.

The report of the Chief Municipal Inspector was read and accepted. It was a very good report, as to the operation of the Town of Coleman.

A brief report was made by the Chairman of Finance, Mr. Holyk, who then asked the secretary-treasurer to read the financial report. There was considerable discussion concerning the report, to which Mr. Holyk and Mr. Colister ably replied.

It was moved and seconded that this report be accepted.

The next to give a report was the Chairman of Public Works, Mr. Kryczka, who had his statement broken down so that the expenses were allocated in their proper places. Very little discussion arose in regard to this report.

One of the ratepayers brought to the attention of the council that there is some property on 8th street now vacated and during spring run-off or a flash flood the basements fill with water and this can become a very dangerous situation as children do play in this vicinity.

Mayor Ostash assured that this would be looked into.

The Building committee was the next committee to report and J. H. Hanrahan made this report and outlined some of the work done during the year by this committee and expressed thanks to Mr. Celi for the wonderful job done on the new recreation centre, and the people of I. D. 10, who contributed their share of the money appropriated by the provincial government under the five-year plan.

The next committee to report was fire and police, under chairmanship of M. Corbett. As the fire chief had not submitted a brief there was no fire discussion. A comprehensive police report was given, showing all of the warnings, fines collected and sentences imposed. It was also noted in the police report all break and entering had been investigated and the culprits arrested. There was no discussion on this report and it was accepted as read.

Mr. Ramsay, former mayor of Coleman, then read an article which appeared in The Coleman Journal, stating that there was supposed to have been \$80,000 for the present council. He questioned the authority of this statement and could not recall in his 20 years or more of service to the Town of Coleman, at any time there ever \$80,000. However, he did point out that through his effort and former councils that the Coleman Light and Water was purchased from the International Coal and Coke, which has been a means of considerable profit to the town. The money derived from the same was spent on local improvements.

Therefore it was pointed out by the Chairman of Finance, Mr. Holyk, an increase of the millrate in the town may be necessary as we can no longer supplement the millrate from the Coleman Light and Water Company.

Mayor Jack Ostash then thanked the ratepayers for the interest in the town and thanked the council for their good reports.

in the town which could be readily accounted for.

To mention a few the artificial ice in the arena, pavement and sidewalks on our streets, the purchase of the new sub-division site along with the present grave-yard sites. This statement was backed by Mr. Dibble, who also served well and faithfully for a great many years on the council.

Mr. Ramsay also stated that there were problems facing this council just as there were problems facing past councils, and it was up to us to face up to this responsibility as elected representatives of the ratepayers.

As there was no further business, Mayor Ostash answered all questions asked of him and stated to Mr. Ramsay that some of the money used for other purposes should have been used for the upkeep of the Coleman Light and Water System. The present council is faced with a water problem in Coleman.

The natural gas problem was given at the annual meeting. This was a very favorable report. The report showed that during the first two years of operation there were 443 hook-ups. This, of course, included hook-ups in the Improvement District. It is hoped that by the end of 1964 that this will reach 500 hook-ups.

The financial progress of the system has been so good that it warranted a reduction in the rate from 66 cents to 60 cents or 10 per cent. As there was no major problem or discussion from this report, it was moved and accepted.

The next report was the Coleman Light and Water Company.

The Coleman Light and Water report showed a fair profit for the year ending 1963. It will be noted in the annual report of the company that approximately \$15,000 was used in the operation of the town of Coleman. This has always been a practice of the council in the past. This practice may have to be discontinued as the council is faced with a serious water problem which must be remedied very soon or we could find ourselves in serious difficulties.

Our electrical system requires considerable repair and maintenance which is done in a systematic way. This, however, requires additional revenue from the profit.

Therefore it was pointed out by the Chairman of Finance, Mr. Holyk, an increase of the millrate in the town may be necessary as we can no longer supplement the millrate from the Coleman Light and Water Company.

Mayor Jack Ostash then thanked the ratepayers for the interest in the town and thanked the council for their good reports.

## Mrs. Aline Maufort Passed Away

Mrs. Aline Maufort of Coleman died in the Fort Macleod Auxiliary Hospital on February 26.

Mrs. Maufort, 93 years of age, was born in Wandersheide, Belgium, on February 7, 1871. She came to Canada in 1906 with her husband, settling in Inverness, Cape Breton Island.

After a four-year stay the family moved to Coleman in 1910, living here until 1921 when they moved to Cowley, where they resided until 1944, returning to Coleman, where Mrs. Maufort lived until 1953, when she became ill and went to Macleod.

She was predeceased by her husband August, in Coleman, in 1938, and by one daughter, Mrs. Mary Corneil, in Coleman, seven years ago.

Surviving are three daughters, Mrs. Leon (Marta) Fauville of Coleman, Mrs. P. (Denise) McNeil of Trochu, and Mrs. A. (Eliza)

Brugerolle of Cowley, and one son August, in Cowley; 20 grandchildren, 24 great-grandchildren and three great-great-grandchildren.

Funeral services were held in St. Paul's United Church at 2 p.m. Saturday afternoon, February 28th, and interment was made in the family plot in the Union cemetery.

Rev. H. DeLeuw officiated and Fanin's Hillside Chapel was in charge of arrangements.

Hymns sung were "Unto the Hills" and "Abide With Me". Mrs. J. Owen presided at the organ.

Palbearers were all grandsons of the deceased, Robert Fauville, Alfred Fauville, August Fauville, Emile Fauville of Coleman, and Rene Bougerolle and James Bougerolle of Cowley.

The church was filled with relatives and friends and former neighbors from the Cowley district where the deceased formerly resided, to pay their last respects.

## Parade Opens Ice Show at Blairmore

A parade comprising over 20 floats and decorated cars passed through the Crownsnest Pass centres of Coleman, Blairmore, Frank and Bellevue last Saturday morning as a preview to the two performances of the Crownsnest Pass Figure Skating Club's show "The Wizard of Oz". Sixty skaters took part in the show.

The day was a sunny but frosty one for the Chamber of Commerce - sponsored parade which drew crowds all along the route.

Packed houses at the Blairmore arena viewed the afternoon matinee and evening shows. Mayor Jack Ostash of Coleman officiated at the opening of the evening performance.

## Chapter No. 10, C.N.A. Elect Officers

A meeting of the Crows Nest Pass Chapter No. 10 of the C. N. A. Association was held in the C.N.P. hospital on Feb. 26, when the following officers were elected for 1964:

President, Mrs. Dorothy MacQuarrie, Coleman.

Secretary, Mrs. Barbara Ferby, Hillcrest.

Treasurer, Mrs. Veronica Proc, Coleman.

A very interesting meeting was held with a discussion on a Bake Sale to be held in the near future.

A social hour followed in honour of Miss Violet Karau and Miss Joyce Pepper who are leaving for the Inuvik Hospital, North West Territories, where they have accepted a position.

The man who discovered the telegraph in 1847, Samuel Finley Breeze Morse, was a world famous painter.

## Thinking Day Observed

Thinking Day was observed in Coleman by the B. P. O. E. 1st Brownie Pack in the form of a Parents Night.

A very interesting program made up of Fairy Dances, Readings, Recitations, a Sing Song, a Camp Fire and "Taps" was much enjoyed.

A delicious lunch was then served by the Brownies bringing to a close a very enjoyable evening.

## Coleman Brigade Receive New Auxiliary Pump

Fire Chief John Kinnear of the Coleman Volunteer Fire Brigade announced this week that the brigade had received an auxiliary pump from the Department of Municipal Affairs for use in the Improvement Districts surrounding Coleman.

These districts include Willow Drive, East Coleman, Grafton Town and Carbondale where wells service many of the home-owners.

Chief Kinnear stated the pump which is a fine piece of equipment for the Volunteer Brigade, will handle 100 gallons of water per minute. The Monarch pump is valued at some \$600.

The town has a modern pump unit which carries an emergency supply of water, but at times have to use pumps to draw water from wells and streams in the areas where they are fighting fire.

## School Population Cut By 'Flu

A small epidemic of 'flu reduced the school population in Coleman by as high as 80 students and six teachers at one time during last week, and reports indicate that numerous adults were also stricken with the flu.

The illness lasted for three to five days and many suffered severe stomach cramps, headache and fever.

Crows Nest Pass Municipal Hospital restricted visitors at the hospital during the height of the epidemic. Other towns in the Pass also suffered with the flu.

**OF MANY THINGS**  
(By Ambrose Hills)**Back To Radio?**

I'm one of those ancients who can remember back to the days when there was no broadcasting. My first "listen" was at a Chautauqua tent, in Manitou, Man. Everyone in the tent was allowed to file up to the front and have a headphone held to one ear for a few seconds. All I heard then was a series of whistles and screeches . . . perhaps some early Beattle group?

Only a few years later, a chum and I were sitting up until the late hours trying to catch Little Jack Little.

When I went teaching, I bought a small crystal set on which I could hear Earl Hill and his Capitolians. They were wonderful, and I imagined all sorts of glamorous surroundings in which I thought they played.

Later, as a radio announcer myself, I learned that the surroundings are about as glamorous as an institution. Nevertheless, I

loved the broadcasting business, and often wished that my voice had been good enough to go on to the big time. My voice was heavy and too much exposure to it must have been a wearying experience to listeners . . . but since radio was new and glamorous there were no complaints. In fact, I even had plenty of fan mail, which I loved.

All the while, however, I was writing, for print. The radio words were gone in the air, but print was substantial and I kept plugging away at it. I knew in my bones that radio, though powerful, would never supplant the printed word. The printed word has a magic of its own.

Then TV came.

Now the airwaves are full of music, talk and pictures! I often wonder what will be next. Certainly one day in the not-too-distant future, your daily paper will be printed in your home on a machine that picks it up from the air.

Today, people are going back to radio. One can listen and read at the same time. TV is a very powerful selling tool, but often so strident it drives one away from it. Radio is coming back into its own as a family companion along with a book, magazine or newspaper.

It is wonderful that these means of communication have come along and ended the great hush that must have encompassed the world in the old days. But let us also hope that no dictator, such as Hitler, is ever able to use them for his purposes. Let them concentrate on entertainment and news, delivered by free men who do not have to fear the censorship of politicians.

**OF MANY THINGS**  
(By Ambrose Hills)**Kindness**

I've a friend who works in a large plant. The other day, the young lad in the shipping department ran his jalopy into the ditch and injured himself badly. He was a likeable, happy-go-lucky lad and his kind friends in the shipping department decided to levy a charge against each employee of the plant to give the boy a "purse" that would compensate him to some extent for the suffering he was to face.

My friend paid the levy, but the kind chaps in the shipping department do not know that he needs the money far more than the young lad who ditched his hot rod in a reckless moment. My friend has a son at university, a father who is in constant trouble, and a series of difficult problems that keep his heart aching and his purse empty. He is, therefore, a little bitter about the so-called kindness of the shipping department. He felt they plundered him and others like him whom they do not know, in favor of the lad with whom they had rubbed shoulders every day. He thought they were kind-hearted but short-sighted.

I suppose he is right. There are many do-gooders who take from those they do not know to give to those they do know - people in their own group. They do this with the best of good will, but often with serious consequences.

I asked my friend what could be done. How are you going to stop kind people from their wrong practices?

His answer, I thought, was a good one. "Kindness should be a personal matter. One man should not organize another's kindness - he should do his own good works and leave others to do theirs. He should not rob Peter to pay Paul."

"You could have refused," I said. "The levy wasn't compulsory."

He shook his head. "It was compulsory - unless you wanted to be ostracized. There is nothing kind about the way those guys talk if you try to escape one of their collections!"

The moral could be that one should not have secret problems - a father who drinks, a son who costs a lot to raise, and so forth. Go out and break a leg or get some dramatic ailment. Then your kind friends will take up a collection for you!

It's impossible to hang a price tag on this bottle of blood. Fortunately, in this country, no one ever does. Your Canadian Red Cross provides whole blood and blood products absolutely free to almost 300,000 victims of illness, accident and disaster every year. All that's ever asked is your support. The Blood Transfusion Service is one of the many ways the Red Cross serves this community, this nation and the world. Through the Red Cross your help does so much for so many.

YOUR RED CROSS SERVES YOU

EVERY STEP OF THE WAY

Chairman — John Owen

PORTABLE LAMPS  
GET NEW CONTROLS

Portable lamps are headed for brighter fields.

Dimmer controls are entering the picture as large lamp manufacturers seek to duplicate the trick of the old kerosene lamp, which dimmed easily with a turn of the wick.

One firm has come out with a lamp with a five-step dimming control. Another firm has progressed from there to lamps with high-low dimmers and infinite level dimmer as well.

Although the engineers in lamp design offices have worked hard, some lamps are still plagued with flickering when on low level.

The high-low dimmers are considered as improvements on the three-way bulb which some experts say doesn't work well in pole lamp bulbs.

Used in bulbs and confined spaces the three-way bulbs burn out quickly. On the low dimmer bulbs have a long life and electricity costs are cut.

## TICKS

KAMLOOPS, B. C. — Spring brings many things to the scrub vegetation and grass country abounding with small animals.

Among the least pleasant arrivals are adult ticks waiting on leaf or stem to be brushed onto their prey. Given an opportunity the tick can inflict a nasty wound in its search for blood, according to J. D. Gregson of Canada Department of Agriculture's research station at Kamloops.

He says there are about 30 species of ticks in Canada. Three of these commonly bite humans and inflict painful and slow-healing wounds. Seldom does an attack transmit disease to the victim but it is well to avoid the risk by taking a few simple precautions.

He suggests wearing trousers tucked into socks and a smooth jacket tucked into the trousers when in "tick" country. Clothes should be hung up when not in use and inspected before being worn. A daily search of the person should be made, especially of the neck and head, as ticks usually crawl upwards before attacking.

Ticks on the body should be removed by a slow, gentle pull, which will usually bring away the mouth parts. Contrary to popular belief, the creatures do not burrow under the skin.

Mr. Gregson says adult ticks may be found between March and June. Small animals host the tick in its earlier stages after which it climbs into the vegetation, mops and waits for its next meal. Again contrary to some beliefs, the tick doesn't fall from trees, jump, run nor fly. It grabs hold of whatever comes into contact with it and hopes for the best — a nice cow preferably, but it could be you.

The three most harmful species are the Pacific tick, the Rocky Mountain tick and the American dog tick.

The first is found in rocky west coast areas and is active in the spring and autumn rainy seasons. It is difficult to remove the mouth parts from the point of penetration and the bite produces an unpleasant slow-healing sore.

The Rocky Mountain wood tick extends from the B. C. dry belt to Saskatchewan, and is active from February to May. It may transmit several diseases and the female, after feeding for five or six days causes paralysis in humans and livestock. The victim recovers if the tick is removed soon after paralysis is noticed, but, if it is not, the results can be fatal.

The American dog tick is found from Saskatchewan to Nova Scotia. Similar to the other two in

habits and appearance, it does not appear to spread disease to humans.

Further information on these pests can be obtained from the CDA's Research Station at Kamloops, B. C.

New policy  
study for  
Can. Indians

The Hon. Guy Favreau, Minister of Citizenship and Immigration, and superintendent general of Indian Affairs, today announced to the House of Commons the undertaking of a Canada-wide Indian research program to assess the participation by Indians in the social and economic life throughout the country.

Mr. Favreau stated that the purpose of the \$150,000 study is to provide a body of knowledge that will assist in establishing guidelines for future policy and the overall planning required to promote the welfare and progress of Canadian Indians.

Dr. H. B. Hawthorn of the University of British Columbia, and Dr. Adair Tremblay of Laval University, have undertaken to carry out this major research project as director and associate director.

Prof. H. B. Hawthorn is a noted anthropologist who has written a number of outstanding works on native peoples and also has directed regional surveys of the social and economic life of Indians and other ethnic groups.

Dr. Adair Tremblay is an authority on community planning, and has also had wide experience in sociological research.

Specialist and research assistants located in various universities and research centres throughout Canada will be appointed to undertake portions of the research required.

The research will cover four major areas concerning Indians: economic development, advancement in education, responsibilities that exist at various government levels, band councils and the development of self-government.

In addition to the main areas of research it is expected that relevant studies will be started on such matters as an appraisal of employment opportunities, training, job placement and relevant work values; the relationship of economic development to enterprise, skills, capital and resources; and to specialist guidance and control; welfare and other services, housing and community planning.

the processes and problems of urbanization, social organization and over-all systems of Indian attitude and belief.

KITCHEN  
PLANNING

Never underestimate the importance of a well planned kitchen.

Keep the refrigerator and food preparation area close together. The sink should be between this area and the stove because water is needed for both cooking and preparing food.

A U-shaped kitchen with the sink at the base and the refrigerator and stove across from each other is ideal.

There should be plenty of cabinet space and working surface, and for this you can find room between the sink and appliances.

Bear in mind that all supplies and utensils should be stored at the point of first use.

Adequate storage space for such things as brooms, mops and an ironing board should not be overlooked. A housewife will find that carefully planned work centres, tailored to suit individual taste, will make her kitchen a happy, convenient place to work.

## Jacqueline Kennedy

(S. Horace Lewis, Bryn Hope Erickson, B. C.)

Her grief subdued by courageous strength

She walks with stately tread. Before her in a casket of bronze The light of her life lies dead.

No longer see the sunny smile, The visionary eyes alight,

Nor sense the vigorous urge to lead His country to its height.

Queenly in dignity, poignant her calm,

The sympathy of the world walks with her

And their prayers that she keep alive in their son,

The Spirit of a Great Crusader.

## Letter to the Editor

Feb. 27, 1964,

401 - 10th Ave. S.,

Port Alberni, B. C.

The Editor, The Coleman Journal, Coleman, Alberta.

Dear Editor:

We get The Coleman Journal once in a while second-hand, but feel we would like it steady. Enclosed please find money order for two dollars. I think that is the price, but if it is more please let us know. We have been away from the Pass quite a few years, but once you have lived there every once in a while you get the feeling you would like to see it again, and the people.

There are quite a few people in Port Alberni from the Pass and one Coleman Journal really gets around. I hope to hear from you soon.

Yours truly,

Mr. and Mrs. Jack Houghton.

## Low White Sale Prices!!

[Fashion Prints/Stripes/Pastels/Fitted Sheets]

It's here at last...that wonderful time of the year when Tex-Made sheets go on sale. All over Canada, the fine stores that sell Tex-Made sheets invite you to come in and make your selection from the largest, most colourful collection available. There are white sheets and fitted sheets...six enchanting pastel sheets...five dashing striped sheets...elegant sheets all covered with roses and happy sheets strewn with bright sunny daisies. Sheets of every description and because they're Tex-Made you get more value all year round, because they're woven of more finely spun cotton, with more threads per inch and more inches per length. Join the big celebration...buy Tex-Made now and save!

Sheela Daisies...Tex-Made's newest sheet creation. Here's the freshest look in fashion...Sheela Daisies...It's the evening dress of the year, and like all Tex-Made sheets...right now, they're selling at a new low white sale price.

THE MOST FASHIONABLE BEDS IN CANADA WEAR

## National Employment Service News

Q—What should I do if I lose my insurance book?

A—Write or visit the nearest local office of the Commission and tell them your insurance number (from your "Registration Card"), your full name and date of birth, and full particulars of the loss. They will give you a new book bearing the original insurance number. If you do not know this number, they may have to give you another number, and that means you may lose credit for some of the contributions you have made. Protect your benefit rights by looking after your insurance book and "Registration Card".

Q—If I can't qualify for the receipt of unemployment insurance benefits how can I qualify for the receipt of seasonal benefits?

A—Seasonal benefit may be paid in the period from the week in which December 1 occurs to the week in which May 5 occurs each year, the number of weeks paid depending on your contribution, and work history. The rate of benefit is the same as for regular benefit. If you haven't enough contributions to entitle you to regular benefit you may receive seasonal benefit as follows:

- (1) If you have at least 15 contribution weeks after the Saturday before the preceding March 31st, you may get

five weeks' benefit for every six contribution weeks, with a minimum of 13 weeks or,

- (2) If you cannot qualify under (1) and your previous benefit period has ended after the week in which the preceding May 15 occurred, you may get a maximum of 24 weeks' benefit.

Other conditions you must fulfill are the same as those for regular benefit. Our offices check all initial claims made during December, January, February and March, April, and early May, and if there are not enough contributions shown to entitle the claimant to regular benefit, the claim is considered for seasonal benefit.

## Wood being made into many shapes

The forest industry is doing things with wood that have never been done before.

With the aid of a new process known as Silvaplex it is making wood into shapes and sizes which up to now have been available only in metals, plastics and other moldable materials.

Raw material of the new forest plastic is aspen, often considered a weed tree. A form of poplar, the aspen is a light, quick-growing wood with the flexibility and density which makes it ideal for the Silvaplex process.

Products have almost unbelievable strength and can be made in compound contours and shapes

## DEAR DONNALU

Since beginning her work as a counsellor on CBC radio's Monday to Friday show, Countdown, radio-TV personality, Donna Wigmore has been living with the problems of teenagers. In reply to letters sent in by youngsters across Canada, Donnal has advised on problems such as going steady, grooming, etiquette and the like. The Dear Donnal segment is heard each Wednesday afternoon on the national network.

## Report From Parliament Hill

(Dr. Lawrence E. Kindt)

The second session of Canada's 25th Parliament opened on a cold, dull day and the ceremonies seemed to lack much of their usual color. Extra care was taken with security precautions because of the recent thefts of arms and ammunition from several Quebec armories. The Throne Speech forecasting government legislation for the coming session was the shortest in history.

However, two very important matters are to come before Parliament during the next few weeks. Namely, the Canada Pension Plan and the Columbia River Treaty. Other matters announced were the establishment of a Student Scholarship Loan Fund and the redistribution of federal electoral constituencies. There were also a number of other matters of perhaps less general interest.

No doubt the most contentious matter will prove to be the Canada Pension Plan. The details have not as yet been placed before Parliament. However, I should like to make one thing clear — that everyone seems to be in favor of a national pension plan (except Quebec). The only question being: What is the best KIND of national plan for Canadians? On this matter opinions differ. The establishment of any national pension plan is an extraordinarily difficult and complex matter since so many problems are involved, for example: the best method of paying for the project; the integration of existing pension plans; and how to provide as wide a coverage as possible, to mention only a few.

At the moment it seems that the government plan will NOT cover anyone presently over 55 years of age. There is to be a ten-year build up which means only those 55 years or younger will be in a position to start their pensions at age 65. Matters such as these are certain to be debated and many will argue that funds should be

taken from the general revenue to create the necessary pension fund instead of waiting for the passage of 10 years to build up the fund. This brings into focus another problem — Quebec pays taxes and supports the general revenue of Canada but has refused to join the pension plan and therefore would most certainly oppose the use of general revenue funds. It is issues like this where the sparks are likely to fly.

Actually the most important matter facing Canada at the present time is the question of the serious differences between Quebec and the rest of the country.

This whole matter hangs like a dark cloud over Parliament Hill and the solution to the problem will neither be quick nor easy. During the Throne Speech Debate national unity was echoed by various MP's from all parties. Nevertheless the problem is there right on our doorstep and lofty speeches will not drive it away.

The Department of National Defence has been under fire during the past week. The bureaucratic nonsense that has been going on would have delighted Messrs. Gilbert and Sullivan.

As everyone knows, there has been a number of serious thefts of arms and ammunition from various government armories in the province of Quebec and there are grave fears that these arms may be used by the F.L.Q. (Quebec Separatist Movement) for the purposes of violence or perhaps even outright insurrection.

The Department of National Defence has been under severe criticism in both Parliament and the Press for not providing greater protection for these weapons. In a hurriedly desperate attempt to prevent future successful raids on stores of arms and ammunition from all military establishments and related organizations (including high schools). This order is apparently being carried out to the letter of the law but with apparently little judgment or common sense and the following are only some of the startling and ludicrous results:

(a) A boys' private school in Ottawa (Ashbury) received a midnight visitation by the army which (reportedly with fixed bayonets) removed some target practice rifles and 22 calibre ammunition from the school.

(b) Apparently at the collegiate in Woodstock, Ont., the Army was somewhat less efficient. There the army removed 22 calibre ammunition but LEFT THE RIFLES. If the boys want to carry on target practice, they will have to go down to the hardware store and buy some more shells.

## Taking No Chances

Mistress: "So you want to get married, Marie. I hope you have considered the matter seriously."

Marie (gravely): "Oh, yes, indeed, Ma'am. I dreamed on a lock of his hair, had my tea leaves read, been to two fortune-tellers, and they all tell me to go ahead. Believe you me, I'm not the one to marry reckless like!"

# TEN GOOD REASONS WHY YOU SHOULD JOIN

1. M.S.I. is THE organization sponsored by Alberta doctors through the College of Physicians and Surgeons.
2. M.S.I. is THE organization in Alberta with which doctors have a contract agreeing to accept direct payment by the corporation for services rendered to you.
3. M.S.I. is THE organization with Professional Members (General Practitioners and Specialists) who will accept payment from M.S.I. as payment in full unless you have made other arrangements.
4. M.S.I. is a non-profit organization. ALL your M.S.I. dollar is used to pay your medical bills.
5. M.S.I. has been in operation for more than fifteen years. YOU benefit from its mature experience in claims processing and its low administrative costs.
6. M.S.I. is convenient. You are not required to complete claim forms. You merely present your M.S.I. identification card to your doctor.
7. There are NO age limits.
8. There are NO statements of health required.
9. ALL M.S.I. contracts comply with the provisions of the ALBERTA MEDICAL PLAN. This guarantees you comprehensive coverage.
10. M.S.I. is THE organization owned and operated by its members — BECOME A MEMBER TODAY.

All Individuals (Non Group) enrolling before April 15th will be covered May 1st, 1964. (If you qualify, you may have your premium reduced by the amount of the government subsidy.) Clip the coupon or write today to:

## New Ship Delivers Coal From Coleman for Japan

Embarking on her maiden voyage the Indian freighter Kanishka Jayanti was loaded at Port Moody, B. C., with a record of 35,390 tons of Coleman Collieries Vicary Creek Mine coal, enroute to Japan to feed the Oriental steels mills in Japan.

Booking of the huge ship was made by Frank J. Harquail, president of Coleman Collieries, while the Kanishka was still under construction. The record load of high grade coking coal was loaded at the rate of about 10,000 tons per day, and to transport the coal from Coleman to Port Moody bulk loading docks over 500 railway freight cars were needed.

The huge ship, 627 feet in length, is the sixth of eight huge bulk carriers of the Jayanta Shipping Co. Ltd., built at a cost of approximately \$5 million.

The loading of the coal was completed last Thursday by the Pacific Coast Bulk Terminals Ltd. Loading, and it is expected the trip to Japan will take 12 days.

The Kanishka Jayanti was officially greeted to the port by Port Manager B. D. L. Johnson, who presented the ship master, Captain N. J. Anklesaria and a Captain Vancouver plaque, while Walter S. Brown, president of the Pacific Coast Bulk Terminals, presented the ship with an engraved silver tray.

In making the presentation Captain Johnson recalled that it was fitting that the record export cargo should be loaded at Port Moody at the site where the first import cargo from the Orient, a load of tea, brought by the barque W. B. Flint was unloaded in July, 1886.

Alberta and British Columbia coal producers signed a three-year agreement in October with the Japanese steel industry for increased shipments of coking coal.

The agreement provides for 800,000 tons this year, which shows an increase of 200,000 tons over the

1963 figure, but is dependent on the Canadian Government subsidizing the additional 200,000 tons.

The exports are divided between Coleman Collieries Limited of Coleman, Alberta, and the Crows Nest Pass Coal Company, with its mines at Michel, B. C.

President of Coleman Collieries, F. J. Harquail, appeared confident that the cabinet would favor the additional subsidy, though it is likely to amount to \$2.75 to \$3.00 per ton instead of the \$3.15 asked for. Mr. Harquail said they would use the subsidy to assist in paying the \$5.13 per ton freight rates and 88¢ per ton docking fees.

According to Mr. Harquail, the Japanese interests are fearful that the Panama Canal will be knocked out in some future hostilities, cutting off imports of high grade coking coal from the Atlantic Coast, and for this reason Japan is purchasing more medium grade coal from Canadian and Australian coal fields who ship via the Pacific ports.

Another factor is that ocean freight rates from the U. S. are \$6.50 per ton as compared to the Canada and Australian rate of \$3.50 per ton.

## Coleman Lions To Give Easter Hams At Next Bingo

Winners of prizes at the Coleman Lions bingo were:

\$12, Mrs. Andy Yaromy, Marge Schultz, Don Johnson and Gina Lord, both of Blairmore.

\$10, Mrs. Romeo Thibert, Nina Hurd, Edna Campbell, Mary Fab-

ro and D. Hirsch.

\$4, Ernest Amatto of Blairmore, Mary Fabro and Delina Pow.

\$3, Betty Aschacher, Frances Cole, Lillian Montalbetti, Isabelle Sellen and Frank Lamey, all of Blairmore, and Annie Topak.

\$2 door prizes, Marge Schultz, Mrs. Roth of Fernie, B. C., Eva Pierzhala of Hillcrest, and Frank Lamey of Blairmore.

Consolations were awarded to Al Carlson, Mary Fabro, Muriel Ingram, Delina Pow and Rea Pinel of Blairmore.

The next bingo night on March 18 will feature jackpot prizes of \$50 in 55 numbers, \$105 in 56 numbers and nine other cash games, besides 10 big free Easter hams as door prizes.

## Elks Name Bingo Winners

Winners of prizes at the Elks bingo night were:

Grocery hamper, Grace Rodin-yak of Blairmore.

Mix-master, Mrs. Tulissi.

Piece of luggage, Mildred Johnson.

\$25, Tillie Hillas of Blairmore.

\$15, Joe Christie, Bellevue.

Tire, Sandra Fisher, Blairmore.

## Personalities IN THE NEWS

Miss Heather Fleming of Fernie, B. C., visited her parents, Mr. and Mrs. M. Fleming recently.

Mr. and Mrs. R. Findley and son visited at Calgary with their eldest son and wife and family.

Mr. and Mrs. Harold Nelson were recent Calgary visitors.

Mrs. Walter Tymchyna and daughter of Cranbrook is the guest this week of her parents Mr. and Mrs. S. Penney.

Mr. and Mrs. John MacQuarrie recently visited their daughter and son-in-law Mr. and Mrs. Joe Halstenson and baby granddaughter, Sandi Jo, at Banff.

### OORP Official Local Visitor

District Deputy Belinda Drew of Fernie, B. C., paid her official visit to the Coleman Order of the Royal Purple No. 96, last week.

The visit also marked the occasion of the 17th birthday of the Coleman Order.

During the evening Past Honored Royal Lady Isabelle Petsuk, Conductress Dorothy McGregor, and Margaret Gates were called upon and presented with their 15-year membership buttons.

Two new members were also inducted during the ceremonies.

The drill team, headed by Capt. Isabelle Petsuk, performed a number of marches during the affair. During the banquet supper a large birthday cake was brought into the hall and cut.

### O. E. S. Official Visits Coleman

Close to 70 members and visitors of Minerva Chapter No. 41, O. E. S., gathered in the I.O.O.F. hall in Coleman for the official visit of Sister Vera Oliphant, the Worlthy Grand Matron of Grand Chapter of Alberta, to Minerva Chapter No. 41.

Other Grand officers were: Grand Organist, Grace Storey of Empress, Alberta; Sister Ethel Curry of Hillcrest, Grand Representative of Scotland; and Sister Mrs. E. Rouleau of Pincher Creek, Grand Representative of Florida.

Other Eastern Star orders represented at the meeting were from Leta Chapter, Blairmore; Bellcrest Chapter of Bellevue, Hillcrest, Castleview Chapter from Pincher Creek and Acacia Chapter from Calgary.

Prior to the sessions a banquet supper was enjoyed in St. Paul's United Church club rooms which was catered to by the Ladies of the United Church.

Prior to the closing of the sessions in the I.O.O.F. hall a lunch and refreshments were served.

### Employment Good In The Pass

Mr. T. M. Robertson, manager of the National Employment office in Blairmore, has stated employment conditions in the area have remained good during the month of February. Unusually good weather has enabled the mining and lumbering industries to operate at full capacity.

Prospects for the coal industry appear better now than at any time since the advent of the diesel locomotive. The recent decision of the Federal government to subsidize the additional 200,000-ton-a-year for the Crows Nest Pass Coal Companies has provided additional incentive to year-round employment in the industry.

Lumbering has remained stable and has provided steady employment for workers in the industry throughout the month.

The area welcomes the addition of the Rangeland Motor Hotel at Lundbreck, the new seed cleaning plant near Cowley and is looking forward to the prospect of other new industries coming to the district in the near future.

Work on straightening out No. 3 highway immediately east of the Alberta - B. C. boundary has employed some additional 20 men clearing brush and doing preliminary work before heavy equipment is hired for the job. This new section will eliminate several grades, sharp curves and a railway crossing.

On the whole, the industrial outlook for the area remains encour-

Mr. and Mrs. R. Tiffin were Calgary visitors last week, the guests of their son and daughter-in-law, Mr. and Mrs. R. Tiffin, Jr.

Mr. and Mrs. Secundo Semenzin of Kimberley, B. C., were visitors here last week and attended the funeral of the late Henry Zak, sr.

Miss June Borrow, employed in Calgary, spent the week-end with her parents, Mr. and Mrs. W. Borrow.

Mr. and Mrs. R. Tiffin, Jr., of Calgary, spent the week-end with the former's parents, Mr. and Mrs. R. Tiffin, sr.

Mr. and Mrs. L. Bubniak, accompanied by Mrs. K. Raymond, visited their son and daughter-in-law, Mr. and Mrs. T. Bubniak in Missoula, Mont., recently.

aging. Further development is expected. With the continued support and enthusiasm of business men and workers in the area, industrial development can only improve.

### Small Fire In East Coleman

A small electrical fire was controlled without damage by the Coleman Volunteer Fire Brigade on March 4th around 11 a.m.

The fire began in the electrical wiring outside the Louis Sirak home in East Coleman, and quick response by the brigade prevented any damage or the fire spreading.

The closer you are to a person, the more tact and courtesy you need.

### Engagement Announcement

Mr. and Mrs. James Francis McDonald wish to announce the engagement of their third daughter Darlene Marie to Bruce Ernest Lund, only son of Mr. and Mrs. Peter Lund of Calgary. The wedding will take place in St. Mary's Cathedral, Calgary, on Saturday, April 4th at 2 p.m.
